Gear Up for Spring Savings

Now thru 06/30/11

Field Services

PM Inspections
Installation and maintenance
Troubleshooting
Feed Screw and Barrel Measuring for wear
Borescope alignment

Complete Extruder PM Inspections

We checkout your extruder from top to bottom, both mechanically and electrically, submit a full report on the findings and give our recommendations.

We can then quote on ALL reconditioned, rebuilt, replacement or upgraded parts suggested.

MENTION the Spring Special

And we will take 15% Off your next SERVICE Call*

Need an **EXTREME MAKEOVER?**

Go **Green** by Converting your Extruder from Water to Air-Cooling OR Upgrade your Old Antiquated Air-Cooling system with TEMPCO'S

Heating and Air-Cooling Shroud Systems
Take Advantage of **Green** Technology...

Cool TO-THE Touch™

- **Eliminate Liquid Cooling Systems that are Expensive to Operate & Maintain**
- **Eliminate Barrel/Heater Old Style Covers (Guarding) that block access to heaters & T/C's for maintenance, that are cumbersome & awkward to remove & re-install**
- **Reduce Operating Costs & Energy Consumption**
- **Decrease Costly Downtime**
- **Control Barrel Zone Temperature to $\pm 1^\circ\text{F}$**
- **Extend Operating Life with Aluminum Finned Cast-In Band Heaters**

Call us for a detailed quotation on the units listed above or per your custom requirements. Going Green is easier than you think!
